

## Board Testimonials Interview

**Objective: to personalize your volunteer experience and encourage others to volunteer**

1) Can you tell us a little bit about your background?

Your response is not to be an exhaustive list of your credentials and professional accomplishments (“I have a B.A. in B.S, an M.A. in obscure Hittite hieroglyphics and was named the Potentate of Procrastination by my last employer” but rather a brief statement more akin to “I have a background in the sciences, worked in the plastics industry, and have a keen interest in classic rock and technology.”

2) When did you first start attending lectures at LU?

3) What impressed you about the organization?

4) Why did you volunteer for the Board?

5) What's your role on the Board?

6) What have you learned volunteering for the Board?

Would you encourage others to volunteer for the Board and why?
