

CURRICULUM COMMITTEE REPORT

DECEMBER 2nd, 2021

1. Current (Fall 2021) Series and Preparations for Winter 2022

- We have now completed Week 7 of the Fall series.
- Course outlines for Winter 2022 were posted on the LU website and have been mentioned in each of the lectures since they were posted.
- We will start rehearsals in early January for MC's, speakers and Tech Team Zoom Hosts.
- Remembrance Day was observed at the November 11th lecture with a short observation and a reading "In Flanders Field" done by Deb Forsyth-Petrov, with music provided by Len Klochek.
- Follow-up to my previous report in November about Dr Carolyn Harris's series (for Winter, 2022), we have worked out a condensed lecture schedule with her and it is posted on the LU website.
- Course outlines have been approved by the Curriculum Committee for Winter, 2023 and we expect to finalize 3 courses for Fall, 2023 at our next meeting.
- Note that all speakers engaged for lectures through Winter, 2023 are planning to deliver their lectures on Zoom, and any change to location will be subject to the speaker's ability to travel to Fairfield.
